

BONALDO

AX

Designer: **Gino Carollo**

Geometric essentiality and linearity are the choices of a design language for the AX rectangular extendable dining table based on simplicity but also solidity, underlined by the sizeable base. The appeal of the material contrast between the top and the legs makes any decoration almost superfluous, enhancing the purity of the design and Bonaldo's handcrafted excellence. The juxtaposition of very

different materials underlines the contemporary feel of the design: the legs are offered in painted metal of numerous colours or burnished finish; the top, both in the fixed and extendable versions, is available in wood or ceramic. A console with the same name (AX Console) is also available for creating rooms with a coordinated style.
