

BONALDO

Image

Designer: **Gino Carollo**

Featuring an unusual texture, the Image unique sideboard immediately grabs the attention thanks to its moulded glass doors which resemble an idealised bas-relief while the front of the sideboard presents an abstract geometric pattern. As a piece of furniture, it demonstrates the combination of

research into decorative qualities with volumetric purity, thereby facilitating its insertion into a wide range of spatial contexts while as a stylistic choice, it is enhanced through its finishes and the choice between bronze or lead colours.
