

BONALDO

Pisa

Designer: **Mauro Lipparini**

The Pisa coffee tables, designed by Mauro Lipparini, are furnishing accessories with a strong character, thanks to the monolithic design of their bases. Available in the single block version with a recessed or cap-like top, the signature feature is the angle of the base which leans diagonally like the tower

after which they are named. Metal, used for the base, is the common thread running through the collection: the minimal decor coffee table assumes its own identity based on the material used for the top, available in ceramic, glass, marble or metal in the same finish as the base.
