

Wall systems

# Caminetto

An electric fireplace that reinterprets tradition in a minimalist way: the flame, visible through a thin slit, gives a warm and evocative effect, while the crackling of the wood is returned through a delicate sound effect. Everything is adjustable with a simple gesture thanks to the remote control, allowing you to customize atmosphere and intensity.

## THE FRAME THAT ENHANCES THE FLAME

The fireplace frame becomes a design element, emphasizing the flame with lightness and sophistication. Available in different finishes, it allows the fireplace to harmonize with the style of the living area, transforming it into an elegant and distinctive detail.

## TAILOR-MADE BENCH: DESIGN AND FUNCTIONALITY FOR THE FIREPLACE

The platform becomes a scenic and functional element, welcoming the fireplace with elegance and discretion. Realizable in wood, HPL, stoneware or marble, it interprets materials and finishes in a contemporary key, transforming the base of the fireplace into a design detail with a strong aesthetic character. Thanks to its modularity, the platform integrates harmoniously into the space, enhancing every composition of the living area.

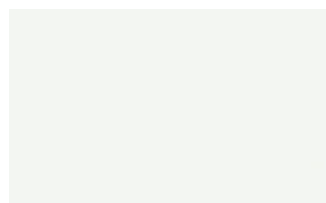

# FINISHES

Every detail can be customized: choose finishes for the module shell, frame or bench, creating a fireplace that blends seamlessly into the style of your living area.
