

Wall systems

# Porta bilico

The pivot door combines functionality and design, providing push-to-open in both directions. With either floor-to-ceiling or floor-to-tall units mounting, it is perfectly suited to both domestic and professional spaces. Its design versatility makes it ideal for made-to-measure solutions: it can integrate into central walls, corners or passage spaces, enhancing any room with elegance and practicality.

## IT DIVIDES AND CONCEALS SPACES ELEGANTLY

Thanks to its push opening in both directions, it can become a discreet filter between spaces, separating living and night areas or creating reserved passages without sacrificing visual continuity. Ideal for those who love flexibility, it allows rooms to be hidden or unveiled with a simple gesture, enhancing each room with elegance and practicality.

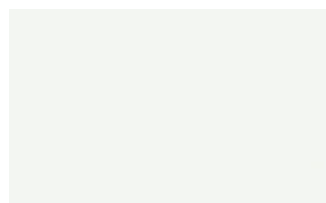

# FINISHES

Textured, matte lacquered, glossy lacquered, essences, canneté, and UP surfaces: endless possibilities for making your door unique by choosing materials and textures that speak to your style.
