

Wall systems

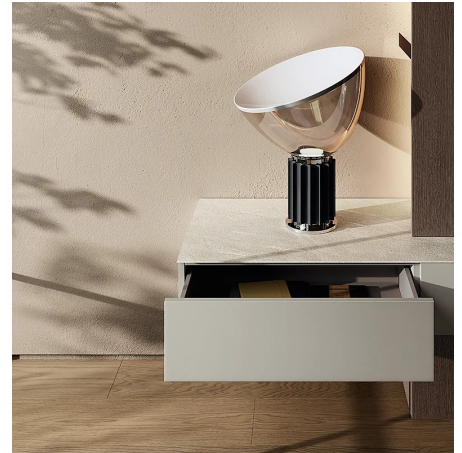

Slim

Slim is a versatile wall-mounted day system, based on many different storage units to easily customize your living room, study, home office nook, entry hall or to take advantage of a transitional space according to your needs.

LINEAR DESIGN, COMPOSITIONAL FREEDOM

Clean lines and perfect proportions define the Dallagnese style. The day system can be configured with push-pull modules, for a minimal and continuous effect, or with integrated handles, for a touch of practicality and character. Two different modes, one philosophy: a linear and timeless design that adapts to every style requirement.

HARMONY AND LIGHTNESS WITH OPEN UNITS

Slim by Dallagnese enhances spaces with open elements that create rhythm, movement and depth. Open units and suspended modules alternate with balance, making the living area more dynamic and light. Each composition is created to dialogue with its surroundings, offering solutions that combine functionality and contemporary aesthetics.

REFINED FINISHES

The wide range of finishes makes each composition unique and personal. From warm wood tones to matte and glossy lacquers, from textured stoneware to canneté, now also available in the new lacquered version. A refined detail that gives three-dimensionality to the surfaces, transforming the living wall into a true decorative furnishing element.

PROTRUDING ALUMINUM HONEYCOMB DOORS

Innovation and lightness meet in the projecting aluminum honeycomb doors, a technical and stylistic detail that distinguishes the Slim day system. This solution combines structural solidity and visual sophistication, offering a suspended and contemporary effect, perfect for those who want a living room with an exclusive and modern style.
